

**We've got your back.**

**Our financial strength gives you one less thing to worry about.** Not only do we have more than \$5 billion in assets, we also have the strongest premiums-to-surplus and debt-to-capital ratios in the industry. This means that we set aside more capital for every dollar in premiums we write than any other major underwriter and that our company is conservatively capitalized. And that all adds up to strong claims-paying ability, solid financial strength, and—most of all—peace of mind for you.
